She is survived by her husband and two sons, one sister, Mrs. W. D. Hec of Kenova, and two brothers, V. B. Dawson of Ashland and G. W. Dawson of Catlettsburg. Only two weeks previous to her death her little son, Dawson, aged 12 years, died of typhoid. Mrs. Hensley's funeral was held on Friday and was conducted by Rev. F. Reynolds, of this city. The burial took place in the Summit burial ground and was attended by a large number of relatives and friends. She was a good woman.

Stewart of Louisa, and has visited here often. She is a very attractive young lady. The groom's mother is a native of Louisa. She was Miss Jennie Prichard before her marriage to George Calvin, the well known cattle buyer. Vincent is an energetic young man of integrity and good habits. The couple had intended to be married later, but to avoid a more conspicuous wedding affair they slipped over to Catlettsburg with one or two friends and settled the matter going on to New York for a trip of two or three weeks.

### HAGER HOMESTEAD IS TO BE ENLARGED AND BEAUTIFIED

Ashland Independent.—Dr. and Mrs. S. P. Fetter are here this week the guests of Mrs. C. M. Preston enroute home to Paintsville. They will go on to their home and make arrangements to move here some time this month.

This winter they will have architects and designers here from some of the cities and they will plan to begin improvements on their new home, the Hager residence, on Bath-av. In the early spring they expect to make a change in this home, making it larger and adding many improvements. They think now they will make it a colonial design. A landscape gardener will take charge of the grounds about the home and when they are through here, it will be one of the most beautiful residences in this section.

The home occupies about a half a block and it is beautifully located and while it is now very attractive, no money will be spared to make it one of the handsomest places in the state. The May home at Paintsville will be retained for a summer home.

T. P. Calhoun, of Water Gap, has just been made an assistant paymaster in the United States navy. ### AMERICAN THANKSGIVING DINNER FOR SAMMIES

Washington, D. C., Oct. 3.—There is a real American Thanksgiving dinner—turkey, cranberry sauce, pumpkin pie and all—on its way to Uncle Sam's boys at the front in France.

It is all thanks to the big hearted thoughtfulness of that square-jawed fighting man, General John J. Pershing.

Characteristically he said nothing about it. Even the men at the front don't know it yet. But a whisper of something of the sort leaked through via cable and today the war department confirmed it.

It will be General Pershing's party all the way through. Even drunkester, every slice of white meat, every slab of pie will be strictly a grizzled warrior's contribution through the war department.

No Thanksgiving dinner champion has yet appeared for the hundreds of thousands of boys in camps in this country. But the war department hinted they would be taken care of, too.

### WALDECK FAMILY REUNION.

Mr. and Mrs. N. D. Waldeck have been enjoying a family reunion. It was the first time their children had all been home at the same time in about twenty-five years. Mrs. Mat Meek and daughters Misses Mary Hannah and Virginia, of Little Rock, Ark., Mrs. C. B. Ross and children of Ashland, John Waldeck and son of Portsmouth, Ohio, Jas. Jolly Waldeck of Norfolk, Va., Geo. Waldeck of Mabscott, W. Va. and Mr. and Mrs. Chas. Waldeck of Louisa were their guests last Sunday.

### METHODIST EPISCOPAL CHURCH.

Next Sunday morning, October 14, will be a Rally Day service for the congregation. A committee of 5 men will rally the men and 5 women will see that all the women are present. The men say they will outnumber the women. A part of the time will be given for a church "invoice."

On Sunday, October 21, the Sunday school will observe Rally Day with a special program "The Flags of Freedom," celebrating the 40th anniversary of the birth of Protestantism. The program is also patriotic.

### Read What the Kaiser Said

"From childhood I have been under the influence of five men, Alexander, Julius Caesar, Theodor Second, Frederick the Great, Napoleon. Each of these men dreamed a dream of world empire—they failed. I am dreaming a dream of the German World Empire—and my mailed fist shall succeed."

Those words, written by the German Kaiser and printed by him in a pamphlet many years ago, show what he has been planning all these years. He expected to make the whole world bow to him. He expected to make Russia, France, England and the United States provinces of Germany. He planned to place his ruthless, fiendish Prussian general in charge at Petrograd, Paris, London and Washington and do there what they've done in Belgium.

And the worst of it is that the Kaiser has almost succeeded. There is still a chance that he may succeed. He has planted his sneaking, slinking spies in every country of the globe. He has then everywhere in these United States—not only men of German blood but reptilian hirelings of other nationalities—dastard sneaks of lowest type who bomb munition plants, encourage slackers, stir up dissensions amongst the workers of our most important industries and use what influence they can to keep a few weak-kneed Americans from buying Liberty Bonds.

Even some of the prominent men who make our laws have proved themselves the willing, slimy tools of Prussian interests; have encouraged sedition, blocked the efforts of loyal patriots and thus have helped our soldiers in the back and stabbed to make this war last that much longer, with all its bloodshed, all its terrors, all its agony.

With such conditions confronting us the duty of every real American is made exceedingly plain. No man of honor can have a moment's doubt as to the course that he should follow. Every real American, no matter what country he may have been born in and no matter where he is, on the farm, in a store, in an office, in a shop, in a mill or factory, is against the Kaiser and for the Stars and Stripes forever!

### RED CROSS SEALS TO BE SOLD IN LAWRENCE COUNTY

Miss Marion Williamson, organizing nurse, Kentucky Tuberculosis Commission, of Frankfort spent Monday in Louisa organizing for the sale of Red Cross seals.

Mrs. George R. Vinson was made chairman. Mrs. W. L. Ferguson, Mrs. Kennison, Mrs. Horton and Misses Rebecca and Kathleen Lackey, Opal Spencer, Maud Smith and others are to have the sale of the seals at different places in the town.

Miss Beattie Collinsworth will distribute the seals to the county teachers to be sold in their communities.

Miss Williamson feels sure that this county should dispose of 10,000 seals, amounting to \$100, 25 per cent of which will stay in this county to be used for charity. Where there are visiting nurses, 75 per cent of the returns stay in the county.

The proceeds of the Red Cross seal will be used as it has heretofore been used, and with existing conditions of this war time, we are made to realize more than ever the need of a fund to fight tuberculosis and to help the distressed.

Every child should be made to understand the cause of the Red Cross seal and be urged to buy one seal, if no more, which is only one penny.

## DENNIS DESKINS ACCIDENTALLY KILLED

Pike County Boy Has Skull Fractured  
 At a Cincinnati School.

"It was a most unfortunate accident—if the stone had struck any other part of his body it hardly would have produced a bruise, instead it struck the thinnest portion of the base of his skull causing a fracture, from which he died."

That was Major A. M. Henshaw's declaration Monday after a complete investigation into the death of Dennis Deskins, 17, of Borderland, W. Va., student at the Ohio Military Institute and at Cincinnati. Coroner Bauer also found that the death was from an accident. Deskins and other students were walking Wednesday when one of them threw the stone, intending to toss it in front of where they were walking. It slipped from his hand and struck Deskins, inflicting what was to all appearances a scalp wound. Sunday, however, it developed his skull was fractured and an operation was performed at the Bethesda hospital. The youth died following the operation.—Times Star.

We learn that the Deskins family lives in Pike-co., Ky., just across the river from Borderland. Wm. Deskins is the father of the boy.

Mrs. Deskins was in Louisa during the county fair and was one of the Judges in the women's department.

### CORPORAL M. J. WROTEN.

Milton J. Wroten, formerly of this city, who has lived in the South for several years, is now a corporal in company H, 324th Infantry, N. A., and is at Camp Jackson, Columbia, S. C. He had received considerable military training while a member of the Georgia State Guard during his residence in Savannah, Ga. Shortly after joining Uncle Sam's forces he was made a Corporal. For the past two years he had been a resident of Jacksonville, Fla., where he was in the insurance business. He is the youngest son of Dr. and Mrs. G. W. Wroten, of this city. The many friends of the family will be interested in the fact that Milton has answered the call of his country. He has the capacity and spirit needed in high class service. Since the above was written Corporal Wroten has been promoted to Sergeant.

### SOLDIER BOY WINS BRIDE.

Mr. Martin Cisco came to Louisa last Saturday from Ft. Thomas and that evening he was married to Miss Clara Ferguson, of this city. The Rev. W. A. Gaugh, pastor of the Baptist church, performed the ceremony in the presence of the family and a few close friends.

The bride is a pretty and attractive girl. The groom, who is the oldest son of Judge and Mrs. A. N. Cisco, of Grayson, recently enlisted in the army and at the present is stationed at Ft. Thomas to which place he and his bride have gone. They have the best wishes of a host of friends.

### RED CROSS.

The next meeting of the Lawrence County Chapter A. R. C. will be held on Tuesday evening, October 16, at the M. E. Church South. A. C. Bostwick has recently been chosen secretary of the chapter and has, under date of October 6, received the following order from National Headquarters. To all chapters:—

A simple form of by-laws for chapters is here presented. Since it is highly desirable that there be as great a degree of uniformity as possible, all chapters are urged to adopt these by-laws or amend their existing forms.

### Notes.

At the beginning of the present year Red Cross membership in the U. S. was 275,000. Now it is about 4,000,000. The American Red Cross now has more than a dozen base hospitals in France, each equipped with at least 500 beds, and each served by twenty-two physicians, two dentists, sixty-five Red Cross nurses and 150 men of the Medical Corps.

Lawrence County Chapter A. R. C. now has 150 members. It ought to be 1000.

Before the war there were just 83 permanent French women nurses. 7000 French women are now serving in Red Cross ambulances and hospitals. The value of the volunteer work of the members of the American Red Cross for this year is estimated at \$50,000,000.

Any case of persons, other than those acquiring the right prior to January, 1905, using the name or emblem of the Red Cross to assist in the sale of merchandise, is a violation of the provisions of the federal criminal law.

The United States army will need at least 20,000 trained nurses.

There are now 655 American women enrolled as Red Cross dietitians. Since 1916 more than 3000 women have completed the course in home dietetics.

### CAPTAIN DICKINSON ASSIGNED TO K. M. I.

### REMINISCENCES BY CAPTAIN F. F. FREESE

Cannel City, Ky., October 2.

Big Sandy News:— Week before last when I received the NEWS I was especially touched by the announcement of the death of George Norris, of Fallsburg. Last week told me of the passing of Dr. Wade—Jack Clark, as we used to call him.

Since I have made my home with the miners of Morgan-co., I could not tell how many of my friends have passed to the great beyond, but the loss of these two friends reminded me, that with one exception, I was the last living of the "Nightingale Minstrels," that other living, so far as I know, is the gifted, sweet touch violinist Mr. Henderson Pennington, whose home was in Huntington the last time I saw him. "Heck" as we called him was truly the whole show—could play all instruments and could out dance a fairy.

Poor George Norris was our "clog dancer." He could jump higher and come down easier than anybody I ever saw.

Dr. Wade was our bass violinist. We were not professionals, we showed in adjoining towns, not for profit, but for fun and the citizens of Catlettsburg, men and women, all joined to make our band a success. By the way, I must tell what part I took. Heck and I played a duet, he first violin I second and we sang a duet, I forgot to say what a sweet singer he was.

Mr. Wade, Judge of Boyd County Court and the present nominee to succeed himself, I saw in Lexington a few weeks ago and he was in perfect health. During the existence of the Nightingale Minstrels the pride of all Kentuckians, J. C. Breckenridge, came to Catlettsburg on legal business. The gifted son of the Big Sandy, Alexander Martin, suggested that we go as a band and serenade Mr. Breckenridge, who was stopping at the Harris house, so we had a meeting and went to the hotel. We started the tune "Listen to the Mocking Bird" and when we had fairly started, Jack Clark (Dr. Wade) stopped and said, "Boys, you will have to wait till I grease." He wanted to rosin his bow. We had a hearty laugh, and after several tunes and songs Mr. Breckenridge acknowledged our compliment in words and sentences that I did not want to remember. I just want to remember the impression. What a handsome man and how justly proud we are to call him our brother.

Dr. Wade and I had a good laugh over the "grease" while he was in Lexington and I took him to see the Breckenridge statue.

I hope and pray that the Nightingale Minstrels, without the loss of one, may sing a different song and have different instruments even as are sung and played by the angels in heaven.

F. F. FREESE.

**PASS ALONG THE SMOKES**  
YOU warm-hearted people of Lawrence county won't let the men who are fighting your fight go smoke-hungry.  
Not a bit of it. You're going to see to it that they get all the tobacco they need—just as the folks back home in England and France are taking care of the smokers for Tommy and Paddy.  
It isn't much to do—considering. A dollar or a quarter from you that gives a little comfort to one of your own flesh and blood doesn't stick up to much alongside the fact that the very man you are befriending may have to give up his life.  
But it's a regular thing to do—and you "regular" men and women will do it.  
This is the way. Fill in that coupon below, put it in an envelope together with all you can afford to give and drop it in the nearest box now addressed to **BIG SANDY NEWS TOBACCO FUND**.  
Our paper has joined The Courier-Journal and The Louisville Times in this most worthy undertaking.  
Approved by the Secretaries of War and Navy, the management of this fund buys its tobacco at cost—every contribution of 25 cents means 4¢ to 5¢ worth of tobacco for the man out there.

No one profits but the fighting man—rents, postage, advertising are all contributed and the soldier who gets your tobacco will send you a postal telling how much it meant to him.  
There's no argument here. Just put your name on that blank line and pass along the smoke.

## NEWS OF THE WORLD.

### SATURDAY.

Internal Revenue Commissioner Rogers, in an interpretive statement of the new war tax law, warns the public that individuals must take the initiative in making tax reports to the Government. Severe penalties are provided for persons who fail to make correct inventories. The Bureau of Internal Revenue will verify the tax reports later. Payments of taxes may be extended not exceeding seven months upon the filing of a bond. Commissioner Rogers' notice enumerates the classes of individuals and corporations affected by the law.

A final agreement on wage increases in the central competitive coal field was reached at Washington last night by a conference of operators and miners. The increases add 10 cents a ton to the present pay for pick and machine mining, 15 per cent for yardage and dead work, and \$1.40 a day for unskilled labor. Trappers will get 75 cents increase, and other boys \$1. The new contract is for the period of the war, provided that does not exceed two years.

In Russia a Coalition Cabinet has been formed with M. Kerensky as Premier, notwithstanding the demand of the Democratic Congress that no government should be constituted without the sanction of the Congress. Meanwhile further trouble has broken out in Turkestan, where a revolutionary movement was started in the early week, but later was suppressed. The Russian Government has now declared that a state of war exists in that region.

The resolution authorizing inquiry into Senator La Follette's St. Paul speech and a committee report declaring that action on disavowal of the speech against Senator Stone is not warranted, were adopted by the Senate last night without debate. Arrangements were made to permit Senator La Follette to make a three-hour speech in answer to his critics, leaving two hours for replies before the hour set for adjournment of Congress.

The date of the local Liberty Loan campaign has been advanced from October 23, 24, 25 to October 17, 18, 19, as not to conflict with the food conservation campaign already planned.

Plans were set in motion by Secretary Baker by which the drafted men in every cantonment will be asked to contribute their discarded (military) clothing to needy Belgians as a most valuable service in the cause for which they are taking up arms.

A sixteen weeks' course of intensive training in every phase of modern warfare, including lectures by American and allied officers, has been arranged out by the War Department for National Guard and National Army divisions.

Government supervision of oil and gasoline prices appears an early possibility, the Federal Trade Commission having received cost of production figures from the large producing and distributing companies.

Gen Porfirio Gonzales, a former Carranza commander, is reported to have started a revolt against the Mexican Government and to have mobilized 500 followers near Aldamas.

### SUNDAY.

Russian internal affairs still claim precedence in interest over happenings along the Russian front. The democratic Congress has adjourned after providing for the constitution of a Parliament of 205 members, which is expected to sit until the constituent assembly is elected. The Petrograd radicals now seem disappointed at the result of this congress and have called a session of the All-Russian Soldiers and Workmen's Deputies to meet in Petrograd, bringing up the threat of an opposition Parliament, as they apparently consider the conservative influences too strong in the body authorized by the congress. The cabinet situation in Petrograd is still complex, but hope is expressed by the Government that an adjustment for a coalition ministry will be reached. Admission of the Constitutional Democrats still seems to be the point at issue in the conferences between the Government and representatives of the divergent interests.

The closing hours of the war Congress yesterday were marked by bitter attacks on Senator La Follette by Senators Robinson, Kellogg and Fall. The Wisconsin man made a two-hour impassioned reply defending the right of free speech in general terms, but failing to answer critics of his recent anti-war utterances in St. Paul. Senator Robinson declared that La Follette should seek a seat in the German Bundestag. The House closing was uneventful.

Big gun actions are in progress along the Flanders front, with indications that the Germans are using in this form of combat, are playing the secondary role. Field Marshal Haig's report on Friday night's activities mentions only the increased fire from the German artillery, failing to reveal what his own gunners are about, the statement recording additional only the fact that there was no infantry movement by the Germans during the night except by a raiding party in the vicinity of Holbeke, which was driven off.

Major Gen. Harry C. Sale, the new commanding officer of Camp Zachary Taylor, arrived in Louisville yesterday from his home in Galesburg, Ill., and two hours later was at work. He expressed satisfaction with conditions at the camp after his first tour of inspection in his automobile. An informal reception for the purpose of getting acquainted with the officers and men at the camp was arranged for his morning at the Y. M. C. A. auditorium.

Gen. Hale is expected to open the military ball to be given at the armory October 13.

Chairman Johnson yesterday announced his organization for the second Liberty Loan campaign in Louisville. Word was brought campaign headquarters that Republican and Democratic political speakers will boost the Liberty Loan campaign in their addresses. Boy Scouts are performing valuable service in distribution of campaign literature.

Dr. David Barr, of Lexington, organizer of Base Hospital Unit No. 43, announces the completion of the unit with sixty-three physicians, sixty-six nurses and 151 enlisted men. Dr. Barr is expecting orders for the unit to report for a brief preliminary training before leaving at an early date for France.

In making public an account of an action between an American warship and a German submarine, Navy Department officials avoid any claim that the U-boat was destroyed, although Vice Admiral Sims indicated his belief that a victory had been scored.

### MONDAY.

Through squalls of rain Field Marshal Haig is blazing the way with his artillery for another raid into the German line in Flanders. Day in and day out great masses of steel have been blasting the German positions which are mapped out for capture when the new drive is launched. Comparative quiet prevails on the northern portion of the front in Russia, and along this line to Rumania. In Rumania, however, the Russians in an attack northwest of the town of Sereth captured a Teutonic allied position, made prisoners of 150 men and also took seven machine guns. Under a heavy artillery fire the Rumanians later were compelled to evacuate the position, having previously captured several enemy infantry companies. Daily the Italians and Austrians are engaged in battles for supremacy on the slopes of Monte San Gabriele in the Gorizia sector. In the latest fighting the Italians captured enemy positions on the northern slopes and also took prisoners. On several other sectors of this theater the Austrians have delivered attacks, but everywhere were repulsed.

In an all-night session at Petrograd members of the Government, headed by Premier Kerensky, discussed the Constitution for the new Government with Constitutional Democrats, Industrialists from Moscow and a committee from the Democratic Congress. They agreed on the essential points and formally adjourned until 5 o'clock Sunday afternoon, when it is expected they will complete their work. Premier Kerensky made an appeal for coalition which he said was the only way to save Russia from ruin.

Germany has still another nation arrayed against her in the world war. Following closely the action of Peru, the republic of Uruguay has severed diplomatic relations with the Imperial Government and the German Minister has been handed his passports. Although Germany had committed no direct act of hostility against Uruguay, the President of the republic in his message to Parliament said it was necessary for Uruguay to espouse the cause of the defenders of justice, democracy and small nationalities.

To a committee of the new Democratic Congress which called on him, Premier Kerensky sounded a warning against anarchy in Russia, saying that the hope of the nation lay in coalition of the Democrats and Bourgeois elements. Minister of Foreign Affairs Terestchenko pleaded for a reconstruction of the nation's fighting forces so that the delegates who will participate in the Paris conference of October 16 may be able to assure the Allies that Russia's boast of strength is no myth.

Ida Tarbell writes of the economic reform established by the Commercial Economy Board in the matter of the wasteful delivery system maintained generally in the United States prior to the war. At least 100,000 men were engaged in delivery work, whereas now 50 per cent of these have been released for fighting or other useful activities by standardizing delivery work on a co-operative basis. Not only men, but horses and automobiles have been saved under the new system.

A nation-wide speaking campaign is to be a feature of the effort in behalf of the new \$5,000,000,000 Liberty Loan effort with men engaged as Mr. Taft, Mr. Bryan, Billy Sunday, Secretary McAdoo, Secretary Baker and Treasurer Burke. Mr. McAdoo telegraphed yesterday from McIntosh, S. D., that the West is "enthusiastically for the loan" and that "the farmers would get behind the loan strongly."

A report recommending Government operation of the print paper and pulp industries during the war and arranging what it calls the defiant attitude of print paper producers was filed by the Senate Printing Committee. The report says that the producers in their greed for excessive profits have imposed a most unjust burden on the press.

Ten of the negroes on trial at Belleville, Ill., as alleged accessories in the murder of Police Detective Coppedge, of East St. Louis, last July 1, were found guilty yesterday and the penalty of each was fixed at fourteen years imprisonment. Three negroes were acquitted.

Victories scored by the British forces during the past fortnight, threatening the German submarine bases on the Belgian Coast, are conclusive indications of allied superiority, the War Department declares in a review of the war operations issued last night.

A policy of holding on and waiting has been advised by Field Marshal von Hindenburg, according to a Berlin dispatch to Amsterdam. "Let us continue to be victorious and hold our peace," he said.

You don't know what upset your stomach—which portion of the food did the damage—do you? Well, don't bother. ## RED CROSS HELPS RESTORE BELGIUM

People Look to United States for Deliverance.

### DE MOORSEL TELLS OF WORK

Americans Start Work of Rehabilitation as Fast as Territory Is Evacuated by Germans—Everything Administered Like Machinery—No Waste of Materials or Effort.

The great American public has not yet enlightened itself as to the true meaning of the American Red Cross in Europe, according to the observations of Baron van der Noot de Moorsel, an American-born Belgian nobleman who left Belgium and came to this country to help in securing American relief for his stricken country, and who recently offered his services to the American Red Cross at national headquarters, Washington.

Baron de Moorsel confirmed the reports that have come from many sources regarding the abject suffering of the Belgian people, which is, he declared, beyond words to express. "The Belgian people," he said, "have lost everything."

The widespread desolation has given cause for the recently effected formation of a special department under the American Red Cross commission to France, by which all Red Cross activities in Belgium, both military and civilian, will be directed, in co-operation with existing organizations there. The department is under the charge of Ernest P. Bicknell, formerly director general of civilian relief of the American Red Cross, and now deputy commissioner to Europe. Rev. John Van Schaick of Washington, D. C., is assisting him.

#### Help Restore Belgium.

The Belgian department was formed by Maj. Grayson M. P. Murphy, head of the Red Cross commission to Europe, after advisement with the king and queen of Belgium, and Brand Whitlock, United States minister to Belgium, cordially approved the plan, which he said he knew was particularly pleasing to the Belgian government.

The widespread devastation by the Germans, Baron de Moorsel reported, is receiving the attention of the Belgian department of the American Red Cross commission in co-operation with the Belgian government, as fast as the territory is taken from Germany. When a village is recovered, certain officials and picked groups of refugees are allowed to start rehabilitating it. The Red Cross furnishes them with the tools and implements necessary to get them on their feet; as work progresses more refugees are allowed to return to the village. This is the part the American Red Cross plays in restoring the land of Belgium.

"The general feeling throughout Belgium," said Baron de Moorsel, "is that it is through the agency of America that the Belgian people will achieve their deliverance. Only those of us who have actually seen conditions there can realize what the American Red Cross is doing for the soldiers and civilians of Belgium. The people are utterly dependent upon America for the necessities of life, and venerate the Stars and Stripes accordingly."

#### Efficiency Is Marvelous.

"The Red Cross would be more enthusiastically supported by the people of this country if they knew how every bit of money or labor that they might contribute would be used in Belgium. The efficiency of the American Red Cross activities in Belgium is marvelous. Everything is administered like machinery. There seems to be no waste of materials or effort. And the Red Cross workers there show by their earnestness that the spirit back of their work is not gain or personal honor, but service to humanity."

The home of Baron de Moorsel at Forten, a short distance back of the Belgian firing line, is now used as a hospital, and has been under shell fire many times.

### DRANK EMBALMING FLUID

Went to Undertaker's First and Was Saved at Hospital.

A man staggered into Daniels & Bilboa's undertaking rooms at Butte, Mont.

"Get my wooden overcoat ready. I'm already embalmed," he ordered. He was J. H. Naeges, and when asked whether he was drunk or crazy, he denied both charges, saying, "Neither, I'm dead."

The undertakers realized that Naeges was in the proximity of truth when he fell, and he was rushed to the Emergency hospital, where a pint of embalming fluid was extracted with a stomach pump.

The man who undertook to undertake himself regained strength quickly after treatment and returned home.

#### Dog Saves Young Master.

Eugene Mullen, aged ten years, a son of Mr. and Mrs. Michael Mullen, was saved from drowning in a lake near Kenton, O., recently by his pet shepherd dog. The lad, not knowing how to swim, had waded into deep water and was going under the third time when the animal took hold of his bathing togs. Boys, attracted to the scene by the dog's barking, saw the animal take hold of the boy and swim for the shore.

## FIRST UNITED STATES FLAG ON FRENCH FRONT

Sent From Village Here Before There Was Any Declaration of War.

In the little village of Potter Hill, just across the Rhode Island border from Pawcatuck, Conn., lives the woman who has the honor of having sent to Europe the first United States flag which was raised on the French front. Mrs. William MacDonald of Maxson street, Ashaway, forwarded several flags, with comfort bags and other gifts, to the boys at the front in France several weeks before war was declared with Germany. A letter of thanks received by her from a young British soldier tells the story of these flags and their significant fate.

The flags were hoisted by this soldier over his little army hut, close to the firing line, two days after President Wilson's proclamation of war against Germany. This was several days before the flag had been displayed by the Massachusetts soldiers, which was reported in the press dispatches of this country to be the very first United States flag thrown to the breeze after war's declaration.

The young soldier who had received the Potter Hill flag was among the first to hear of the president's proclamation, and lost no time in raising the emblem of this republic.

He writes: "Soon men from all along the lines swarmed about the hut like bees to a hive, to learn what was up and then to make sure if the news could be true, and being officially assured of the fact, took on new life, hope and courage."

### BRINGS CHEER TO SICK SOLDIERS AND SAILORS

Miss Theodora Booth, president of the Girls' National Honor Guard, busy at her voluntary task of keeping up sick soldiers and sailors cheerful. She is talking to one of the convalescent sailors and offering him flowers.

The Girls' National Guard has thousands of girls enrolled throughout the country who are engaged in this self-appointed task of mercy. They are doing wonderful work in relieving the hurts of our fighting men through the agency of kind and gentle attention.

The hurt are not the only ones who reap the benefits of these patriotic girls' attentions. During the winter months they will serve coffee, piping hot, and sandwiches to the guards stationed about the different cities.

Miss Booth, who heads the organization, is a daughter of Ballington Booth of the Volunteers of America.

### BEEES GO ON STRIKE

Butterflies, Inspector Says, Got All the Sweets From Flowers.

Butterflies have become so greedy in Fresno county, Cal., that honey bees have gone on a strike, according to C. R. Snyder, bee inspector for this district.

The butterflies have been robbing the bees of the nectar in flowers and finally the honey makers became discouraged and recently the bees have virtually been doing no work at all.

Inspector Snyder says there has been but little feed because of the lack of spring rains. Alkali weeds, burr clover and blue curl are scarcer this year than ordinarily as main honey producing plants for the fall of the year.

### Cowboy Finds \$400,000 Hoard.

Four hundred thousand dollars in old gold coins and gold vessels, discovered by Joe Walsey, a cowboy, in the trunk of a hollow tree, is the find reported from Solomonville, Ariz. The treasure is believed to have been concealed by Spanish priests 75 years ago before fleeing Arizona after it had become part of the United States. Walsey stumbled on the cache while chasing stray cattle in the barren hills above Solomonville.

### Ring in Fish's Jaw.

Matt Parsons of Padecville, Wis., found a gold ring in the jaw of a six-pound pickerel. The ring, set with a ruby, will be returned if anyone can prove ownership, he says. He is particularly anxious to learn how long ago the ring was lost, to prove how long the fish could have carried it.

## BOXING ONE OF CHIEF TRAINING CAMP SPORTS

Man Who Knows the Manly Art Has Edge on Foe Who Does Not.

Because the essentials of boxing form ideal and necessary training for bayonet work, the art of wrestling the padded mitts is to be one of the chief sports of the training camp at Rockford, Ill. Camp officers assert that the man who knows boxing has considerably the edge on the foe who does not, when it comes to bayonet work at close quarters, and declare the efficient boxer to be the better soldier.

To provide the competitive element necessary to keep interest from waning, competition between companies and regiments in boxing as well as in other lines of sports, is planned by directors of camp athletics. The boxing bouts planned will be carefully supervised and all undesirable features eliminated.

Louis Omer, former athletic director at Northwestern university, who has been appointed director of camp athletics, already has outlined his plans for camp sports and for athletic purposes has divided the camp into 21 units.

Among the well-known athletes appointed to represent different organizations in camp sports are Lieut. Fritz Beerman, former gridiron star at Northwestern university, and Lieut. Herbert Jaul, formerly a member of the pitching staff of the Chicago Cubs.

### DOG DRIVES AUTO

Took It Down the Street in Rain Without Accident.

A big Airedale dog had his day recently and took advantage of his opportunity at Pueblo, Cal. In other words, he drove an automobile down the street during a hard rain storm and stopped at the corner without an accident, while the owner of the car had sought refuge in a store near by during the downpour.

The car was standing near the curb on a business street. The street sloped somewhat and the car was headed down hill. Two Airedale dogs were in the tonneau of the car, and tiring of the monotony of being "gentlemen," abandoned their good manners and began chasing each other about the car.

One of them jumped over the front seat and his paws landed on the steering wheel. The impact caused the wheels of the car to be turned from the curb and the machine moved down the street to the corner, where it was stopped, but not before the dog had "driven" it half a block.

### ROW OVER NAME LAFAYETTE

Two French Towns Lay Claim to the Honor of Title.

The name of Lafayette has been the bone of contention of two townships in the Haute-Loire department in France. The town of Le Puy-en-Velay, which has played a certain role in French history, as the birthplace of several well-known men, including a pope, has been advocating changing its name to that of Le Puy-Lafayette. In honor of the general, whose old home is not far off. But the town of Brioude has taken exception. During a recent session the municipal council decreed that, inasmuch as the Chateau of Chavanac, Lafayette's birthplace, was in the parish of Brioude, and that several of his family resided in the town, where the general was wont to come every year for the local fete, the name of Lafayette belonged by right to Brioude, and should not be usurped by Le Puy.

### GIVE DESERTERS CHANCE

Drafted Men Who Failed to Report, May Escape Penalty.

Draft deserters who placed themselves liable to military arrest and punishment for failure to respond when called for military service are given one more chance to escape the severe penalties of military law in a statement by Provost Marshal Gen. Crowder.

"The government takes this means of notifying those who failed to report in compliance with orders issued to them," General Crowder's statement says, "that they will be given an opportunity to escape punishment if they join the colors now and explain their previous failure to do so, but that if they show a willful disposition to evade service they will be charged with desertion, and every effort will be made to apprehend and punish them."

### COW WEARS SPECTACLES

Science in Effort to Save \$7,000 Annual.

In an effort to save a valuable cow from becoming blind, its owner, Charles Hagaman of Ferndale, N. Y., who values the animal at \$7,000, has had an operation performed on the cow's eyes, and it now wears colored glass spectacles to protect it from the sun.

The cow has taken seven prizes at cattle exhibits in two years. Recently it contracted an ailment of the eyes that was threatening its sight. Dr. Benjamin Avery, an eye specialist, with the aid of a veterinary surgeon, is treating the cow's eyes, and, according to Hagaman, the animal's condition is much improved.

## HORRORS OF WAR DRIVE MEN MAD

German Atrocities Make Canadians Fight Like Demons.

### OFFICER TELLS EXPERIENCES

Man Who Does Fighting Prefers to Look on Bright Side of Things—Power for Slaughter of Casing of Shrapnel Shell.—Fearful Things Happen in the Mud.

"The horrors of war" are seldom spoken of by the British soldier. There are plenty of horrors. They are to be seen on every hand "over there." But the man who does the fighting prefers to look on the bright side of things always.

Lieutenant X, an American officer in this country on sick leave, made this statement as the preface to a story.

"Fearful things happen in the mud," he said. "When you are fighting in cold mud up to your waist, with men falling on every hand, you realize that if you are hit you are more likely to die from drowning than from your wound."

#### Gives Shock at First.

"Walking through such a trench very often you step on something soft. It gives you a shock when you are fresh at the game. For you realize instantly it is one of your companions who has been wounded and has fallen in the mud. But after a time you learn not to mind it. You reach down and drag him up above the slime. If there is still a bit of color in his face you drag him out and put him up in back of the trench, where a stretcher bearer will find him. If his face has gone dead white you release your grip, there is a splash and you go on."

In speaking of the power for slaughter of the casing of a shrapnel shell, Lieutenant X said he had seen such a shell fragment take off the leg of a horse, cut a man in half twenty feet to the rear, take off another man's leg fifteen feet distant and bury itself some six feet in the ground.

"There are plenty of atrocities on the battlefield," he said, "but we have learned not to speak of them. The atrocities are not all on the side of the Germans, either. There always will be atrocities as long as there is war. A story is told of one Canadian regiment that charged a German trench late one afternoon. It was driven back. The next day it repeated the charge. In the second charge it found that the men who had been wounded in the previous day's fighting and had been left on 'No Man's Land' had had their hands cut off by the Germans, who crept out during the night."

#### Canadians Take Revenge.

"This discovery made the Canadians fight like demons. By sheer force of their rage they carried the trench and surrounded some fifty Germans. The Germans had their hands above their heads, a token of surrender, but the Canadians went at them with their bayonets."

"Those who witnessed the slaughter say it was frightful. Not a single German was left alive. Most of them were split up the middle by the bayonets of the enraged Canadians. It was soon after that we learned of the order of the German general staff, 'Take no Canadian prisoners.'"

### SUGAR REFINERIES RUINED

Germans Looted Those in Noyon—May Restore Dozen.

An inventory of the forty sugar refineries in the French territory liberated from German occupation this year shows that ten or twelve of them can be restored without difficulty. The rest are nothing but shapeless masses of debris. The Germans stripped all these refineries of everything in the nature of bronze, brass or copper, taking entire machines where practicable, and breaking others up to get the most useful metal out of them.

The sugar beet land in the vicinity of these refineries has been belabored by shells, many of which, unexploded, must be extracted before the cultivation of the soil will be safe.

### Preacher Works as Brakeman.

Rev. Frederick Wedge is now a freight brakeman in the employ of the Northwestern road. He passed the required examination for entrance to the train service in Antigo and made his first "run" between Antigo and Ashland. Rev. Wedge says he likes railroad work and intends to remain on the job until he has saved enough to pay his debts and put away a little nest egg in the bank. According to his statement he will receive about \$125 per month.

### Will Fly to Canadian Goldfields.

United States capitalists are planning the use of hydroaeroplanes to reach the goldfields of northern Manitoba, Canada. It is believed that in this region of lakes, forests and rocks are vast quantities of mineral deposits.

### Airmen Flew With 25 Passengers.

Captain Rizzatti of the Italian army, now instructing American aviators at Norfolk, Va., carried 25 passengers 50 miles during a storm. He used a flying boat. Rizzatti also established a new record by remaining in the air six hours with ten passengers.

### SOMEBODY'S DARLING.

## WONDERFUL STUFF! LIFT OUT YOUR CORNS

Apply a few drops then lift corns or callouses off with fingers—no pain.

No humbug! Any corn, whether hard soft or between the toes, will loosen right up and lift out, without a particle of pain or soreness.

This drug is called freezone and is a compound of ether discovered by a Cincinnati man.

Ask at any drug store for a small bottle of freezone, which will cost but a trifle, but is sufficient to rid one's feet of every corn or callous.

Put a few drops directly upon any tender, aching corn or callous. Instantly the soreness disappears and shortly the corn or callous will loosen and can be lifted off with the fingers.

This drug freezone doesn't eat out the corns or callouses but shrivels them without even irritating the surrounding skin.

Just think! No pain at all; no soreness or smarting when applying it or afterwards. If your druggist don't have freezone have him order it for you.

## The End of Your Corns

Pain Stops at Once—Corn Lifts Off Clean.

There is nothing in the world like "Gets-It" for corns. Just apply it according to directions, the pain stops at once and then the corn lifts off as clean as a whistle. "Gets-It," no bother, no danger. "Gets-It," you know, is safe. Millions have used it, more than all other corn remedies combined, and it never fails.

### Don't Waste Time "Hollering."

"Gets-It" Never Fails. There is no need for you to go through another day of corn agony. But be sure you get "Gets-It." Accept nothing else, for remember, there is positively nothing else as good. "Gets-It" never irritates the live flesh, never makes the toe sore. You can go about as usual with work or play, while "Gets-It," the magic, does all the work. Then the corn peels right off like a banana skin, and leaves the toe as smooth and corn-free as your palm. Never happened before, did it? Guess not. Get a bottle of "Gets-It" today from any drug store, you need pay no more than 25c, or sent on receipt of price by E. Lawrence & Co., Chicago, Ill.

We are engaged in a great foreign war—fighting for human liberty and "if we don't lick 'em over there, they certainly will lick us over here."

It is not an exaggerated statement to say that our entire business prosperity, our happiness, our liberty—yes, and even our lives are at stake in this contest between enlightenment and barbarism.

Speaking at the first session of the medical conference which is being held at Ft. Benjamin Harrison, Colonel T. H. Goodwin of the British Army Medical Department, declared to-day that, owing to the high plane of modern surgery, the number of deaths resulting from wounds was less than 10 per cent. Colonel Goodwin was with the English army when it first landed in France. He saw most service in the Somme sector.

Do you fully realize that right now we are going through the greatest crisis in our nation's history?

The Liberty Loan campaign will close October 27. It is the duty of every citizen who can possibly do so to buy a bond. They are furnished in denominations from \$50 up, and the rate of interest is four per cent. Up to an amount of \$5000 they are not taxable for any purpose, and neither is the interest they produce taxable.

The Senatorial district has been represented by a Democrat for a good many years. The people realize that it is folly to send a member of the minority party there. No matter how strong a man he might be, it is a fact well known that he could accomplish nothing for his district. It is only the members of the majority party in any Legislature that can do things worth while for his constituency. There are more reasons than this why V. B. Shortridge should be elected State Senator, but if there were no other reasons this ought to be sufficient to insure his election.

Let no man who favors prohibition be caught napping at the election in next month. The election of reliably dry Senators and Representatives is of the utmost importance. Do not be deceived by the play of the wets that they have suddenly gone dry. It is the last chance for them and their only hope is to put the dry element to sleep. Vote only for men you know to be dry. Don't take a chance on the fellow who is uncertain or the one who is running on the pussy-foot plan. The real dry man has nothing to conceal. His position is one to be proud of, while the other fellow is ashamed of his platform and seeks to keep it covered from view.

Congress adjourned promptly after enacting the big revenue law, taxing almost everybody for war purposes. Nobody should complain, however. It is a tax in self defense, in defense of liberty. The world must be made safe for democracy and it takes a lot of money to conduct the war. One of the small items that will touch everybody is the increase in postage rates. On and after November 2 the rate on letters will be three cents, postal cards two cents. To use the postal cards two hands it will be necessary to attack a one-cent stamp.

Every unmarried person having an income of \$1000 or more must procure a blank from the Internal Revenue department and make a report. Every married person with an income of more than \$2000 per year must do the same. A heavy penalty is provided for those who fail to attend to this matter. A small tax is laid on incomes above these amounts. So get busy and attend to this at once.

**STYLISH COATS AND SUITS FOR LADIES**

A leading maker of ladies suits and coats will have a large line of the latest styles at E. E. SHANNON'S store in Louisa Friday and Saturday, October 19 and 20, at prices much below what you would pay at retail in the cities. Remember the date and see the goods.

**REV. DIAL WRITES OF CHURCH WORK**

In the year of 1903 Bro. M. G. Alley, whose heart was burdened with anxiety for the salvation of souls with the full approbation of his father, the late Peter Alley, a man of ability and a minister whose praise was in the gospel endeavored to blend together the Christian churches of Mingo county for the purpose of co-operation in order that their combined efforts might conduce to the furtherance of the gospel of Christ. It was not all smooth sailing for Bro. Alley's motives have been distrusted by men whose designs were extremely selfish. But Bro. Alley succeeded in enlisting the sympathy of such good men as Harvey Chaffin, of Devon, Alexander Varney, of Varney, Richard Allen of Red Jacket, Richard Whit of Burch, J. L. Justice of Red Jacket, and John T. Alley of Borderland, and others. These are all valiant soldiers for Jesus, but are sadly handicapped because of their environment.

The aspiration and holy ambition of these brethren have been all the while to preach the gospel to the lost, and not being able to place an evangelist in the field they have tried to reach the people in their respective fields by a system of union meetings and while they have doubtless done lots of good they have come far short of what these good brethren hoped for.

In the meantime, the writer, having resigned his work at Louisa and engaging in mission work up and down Tug in an humble way and having come in touch with these brethren and the work they were doing, was solicited by them to become their evangelist, so I attended their annual meeting at the Taylor school house on Pigeon creek, which began the 21st of September and through the humble effort of the writer, the field was enlarged as far as to take in the greater part of Wayne county. These brethren's hearts are filled and thrilled with joy because they believe their efforts are being crowned with success and that the Christ they love is being honored and that many souls will be adopted into the family of God.

But now listen, during all these years Bro. M. G. Alley has made this the paramount thing, everything has been made subservient to this. He has left his business and his orphan children and has gone through rain and shine at his own expense and not only at his own expense, but has given liberally of his means to help others. He has done all this in such a private, humble way that scarcely any one knew of it, and I want to say, having known Bro. Alley from childhood that I praise God for his pure Christlike life. There are but few people who know Bro. Alley as I do and of all the men that I have ever been associated with, and my acquaintance has been quite extensive, I have not found a more shining example of unselfish Christianity. And brethren as Bro. Alley has been a leader in this work up till now and has manifested his wisdom and emphasized it by his life, let's try more earnestly to blend our efforts together in order to carry out the designs of these brethren which have doubtless been inspired by the holy spirit.

Your servant for Jesus sake,  
A. M. DIAL

The second Liberty Loan, offered October 1, 1917, consists of three billion or more 4 per cent United States Government bonds maturing in 25 years, but callable by the Government on any interest date after the tenth year.

There never was a better time to hit liquor a fatal blow. The demon is on the run. He is groggy and can be put out by following up the advantage already gained in the prohibition fight. Show no quarter, give him no time to recover. He will come back if he gets half a chance.

If we could have ready-to-day equipment representing \$50,000,000,000 how many days before Germany would sue for peace? We can not raise fifty billion in a year, but we are doing our best. And every citizen who does his best by lending his utmost may genuinely feel that he is keeping a boy, perhaps 10, perhaps 50 American boys, out of the death-dealing trenches. Hence more money means less bloodshed.

3:00. Reports of Committees and the Election of Officers.

Dr. P. P. Claxton, Commissioner of Education of the United States has promised to be with us if the war conditions will permit of his leaving Washington, D. C., at that time.

This bids fair to be the best Educational Program ever rendered in Eastern Kentucky. Now is the time for Johnson county people and those in adjoining counties to show their educational colors. Never before in the history of Big Sandy have we ever had the privilege and pleasure of hearing so large a number of such eminent men at any occasion. Don't miss hearing these great educators and thinkers! A treat like this comes but once in a great while. This is an organization for the Tenth Congressional District and there are ten counties in it. The custom is to hold the session in a different county each year. So you see it will be a long time before Paintsville has another opportunity like this. The same is true of all the other counties. Now will we measure up to our opportunities? We want each teacher to come on Thursday and stay till the afternoon trains on Saturday. Any of the Big Sandy trains will bring you to the programs on time whether they are evening or morning trains. If you take the morning trains either north or south you land in Paintsville in time for the full day program. If you take an afternoon train either north or south you are here on time for the evening program. So there is no excuse for the Big Sandy teachers not attending this great meeting.

Thursday-evening program, will be free, including all visitors, teachers, citizens, and the High School pupils.

On Friday morning the enrollment of the association will start bright and early in the High School building. This will be headquarters during the entire session. From here you will be sent to the various homes, hotels and boarding houses. Busses meet all trains and the walking is never crowded. So when you get off the train at the Paintsville depot it is only one mile to the High School building. Good road all the way. Paved streets half way.

The enrollment fee for the whole session is 50 cents. This is used to meet expense of the meeting.

Paintsville is making preparations to show all visitors a fine time. Come and bring your friend.

W. B. WARD, Secretary.

and have a better roof

There is no use in putting on an expensive roof when you can get a better roof and save real money by using

## Certain-teed Roofing

CERTAIN-TEED is the best roof, not only because it costs less to manufacture, but also because it is weather-tight, light weight, clean, sanitary, fire-retardant, and costs practically nothing to maintain.

It is now used as the preferable type of roof for office buildings, factories, hotels, stores, warehouses, garages, farm buildings etc., where durability is demanded. CERTAIN-TEED is guaranteed for 5, 10 or 15 years, according to thickness (1, 2 or 3 ply).

There are many roll roofings on the market, but only one CERTAIN-TEED. It pays to get the best. It costs no more to lay a CERTAIN-TEED roof than it does to lay a poor roof, but there is a vast difference in the wear. You can't tell the quality of a roofing by looks or feel. Your only safety is the label. Be sure that it is CERTAIN-TEED—then you are certain of quality and guaranteed satisfaction.

**Certain-teed Slate-Surfaced Asphalt Shingles** are supplanting wood and slate shingles for residences. They cost less, are just as good looking, wear better, won't fall off, buckle or split. They are fire-retardant, and do not have to be painted or stained.

**Certain-teed Paints and Varnishes** are the best quality paint materials, ground and mixed with mechanical accuracy. Made for all uses and in all colors. With paint, as with roofing, the name CERTAIN-TEED is a guarantee of quality and satisfaction.

### WILL YOU HELP?

For the past five years Mr. C. B. Martin and a few faithful friends have been trying to establish a work shop for the adult blind in Louisville, Ky. They have succeeded in giving comfort and happiness to several of these unfortunate, and by so doing have demonstrated beyond a doubt the humane and the practicability of this noble work.

Ohio, Indiana, Illinois, Maryland, Pennsylvania, Massachusetts, Wisconsin, and many western states have provided very liberally for this work through state and municipal appropriations and contributions and bequests by individuals.

Shall Kentucky let her 1500 blind adults remain in darkness and loneliness, eking out a miserable existence on a poor farm or begging on the street corners?

The good people of Kentucky have always been very quick and willing to respond to worthy enterprises, but very few think of the blind. What could be more noble or render greater good than helping work of this kind?

Close your eyes for a moment and think "What would I do if I were blind?"

What is to become of our soldiers if they meet the fate so many in Europe have met, a fate which many say is worse than death?

Will you help with donations, bequests, political influence or in any way that you can to establish and maintain the best workshop and school in the United States for Kentucky's adult blind?

### SWEET POTATOES.

Have you a surplus of sweet potatoes, that you cannot keep through the winter? If you have would you like to sell them for \$1.00 up to \$1.50 per bushel, according to the grade?

Miss Davis, Home Demonstration Agent is to buy all the sweet potatoes you will have for sale, and with the assistance of other agents these potatoes will be canned. You are to bring your potatoes into Louisa, attend this canning, learn how to can sweet potatoes, that you may go home and can those that you want to keep at home.

Write or phone Miss Davis for further information. Cash will be paid.

A wholesale merchant at Lexington has bought these canned sweet potatoes and that is why the Department of Agriculture can afford to buy your potatoes and pay cash. The Department does not make one cent on these potatoes, their object is to take care of you, help you save your crop that has heretofore rotted.

### RAILWAY PRESIDENT'S OPINION OF THE WAR

Chicago, October 7.—E. P. Ripley, President of the Atchison, Topeka and Santa Fe Railway company, looks for a quick finish of the world war.

"The Germans," said Mr. Ripley, "must fight in the end with their armies as now organized. They have no reserve force from which to draw and cannot possibly last till their children reach military age. On the other hand, the allies are gaining in strength steadily by the arrival of American units at the front. In a little while the allied Germans will be crushed in the spring, at the latest. I heard a New York man capable of discussing the subject express the opinion that the Germans would ask for peace negotiations before Christmas, but I am inclined to believe that operations in the spring will be necessary for a complete victory."

"In your opinion, has the United States Government conducted its part of the war wisely?" Mr. Ripley was asked.

"As a whole, our Government has done remarkably well," he replied. "The Administration very wisely called in the best men obtainable to help in the emergency, regardless of the political affiliations of those selected. In addition, to get more efficiency, it threw into the waste basket a lot of hamperings laws, including most of the anti-trust laws. True, a great many blunders have been made, but we must remember that the war game with most of us is new. It is easy to criticize the Government for its management of the war, but critics are not always fair."

### EAST POINT AND AUXIER.

S. Robt. Auxier spent a few days in Cincinnati last week.

Dr. E. C. Archer, who has been located at Auxier for the past six years, has gone to the army camp at Ochsborne, Ga., and Mrs. Archer and children have removed to Paintsville to live near her parents, Mr. and Mrs. J. W. Auxier.

Dr. Frank Ramsey will take Dr. Archer's place at Auxier as physician for the North-East Coal Co.

Mrs. S. Robt. Auxier was spending a few days last week with Mrs. Eugene Davis.

Sam Stapleton has taken charge of the hotel at Auxier. He is assisted by his daughter, Miss Virginia, and Mrs. Elsie Auxier, a daughter.

A patriotic meeting was held at Auxier last Thursday night.

Miss Virginia Stapleton has been on the sick list.

Mrs. Nancy Webb, one of the oldest residents of our community, is visiting her daughter, Mrs. Frank Howell on Hager branch.

Arnett Baldridge has gone to the army as a volunteer.

Miss Hazel Hunt was at Paintsville Saturday having dental work done.

The report that Lon Music of this place had been court-martialed was a mistake, however, there was some slight altercation between him and his captain.

Prof. John Burke has resigned his position as principal of the East Point school and has gone to Prestonsburg to teach in the college at that place. Prof. Burke made many friends while here.

A. E. Auxier is making sorghum, the maximum price of which is one dollar per gallon in our community.

Bob and Dick Auxier have been employed by the North-East Coal Co. to supply the market at Auxier with fresh beef throughout the year.

Farmers are hustling to gather in their crops.

A panorama of harvest sheaves, red, green and yellow leaves that come in October's beautiful hours and rival all the summer flowers. There is a warm and radiant glow, though oft we feel a touch of snow, and robin sings his sweetest tune as though it were the month of June. Among the clouds the wild fowl sail, in the meadows feed the quail. In woods nuts are dropping when by the breezes tossed they'll yield a goodly store when kissed by old Jack Frost. Persimmon, possum, rabbit are all coming round to savor the boys will have some sport before it's wintry weather. A field the pumpkin's bigger growing, they'll make some most delicious pies along before its snowing. And the harvest moon rising high across the dome of the bright blue sky, smiles down upon them all seeming pleased that it is fall. And winter stars are coming back at night to gaze upon them is a most inspiring sight. And oh, don't you think it lucky just to live in old Kentucky. And isn't it enough to drive away the blues, just to sit down and read the Big Sandy News.

### UNSHAKEN TESTIMONY

Time is the test of truth, and Doan's Kidney Pills have stood the test in Louisa. No Louisa resident who suffers backache, or annoying urinary ills can remain unconvinced by this twice-told testimony.

J. B. Peters, prop. hardware store, Lock-st., Louisa, says: "I was in constant misery whether walking, sitting or bending, on account of my back. When I attempted to rise after sitting, my back felt weak and sharp pains shot through my kidneys. Rheumatic pains seemed to be all over my body, but particularly in my knees, hips and joints. The kidney secretions were irregular in passage and some times bothered me at night. The secretions were unnatural, too, and were scalding in passage. I was languid, discouraged and run down in health. Doan's Kidney Pills did me a lot of good and after taking four boxes, I felt as if I had a new pair of kidneys. All the pains were removed." (Statement given June 28, 1908.)

On December 1, 1916, Mr. Peters said: "Although I have very little trouble with my kidneys now, I do find it necessary to take Doan's Kidney Pills once in awhile. I always get the same good results."

Price 50c. at all dealers. Don't simply ask for a kidney remedy—get Doan's Kidney Pills—the same that Mr. Peters has twice publicly recommended. Foster-Milburn Co., Props., Buffalo, N. Y.

### LONESOME GIRL.

### THE WAR GARDEN.

We planted peas and corn and beets, potatoes and some chard; we thought to stock our cellar with the products of our yard. We've checked up now on all accounts, and this is how they read: We gathered stuff worth 69 cents and paid six bucks for seed.—Detroit Free Press.

He bought a rake and bought a hoe, we thought all we might need; and then we bought a peck of every kind of seed; we worked of morns, we worked at night, at noon our back we bent; but did we raise an onion? We did not get a scent! —Lewis.

### TAKE "CASCARETS" IF HEADACHY, BILIOUS AND CONSTIPATED

### BEST FOR LIVER AND BOWELS, BAD BREATH, BAD COLDS, SOUR STOMACH.

Get a 10-cent box.

Sick headache, biliousness, coated tongue, head and nose clogged up with a cold—always trace this to torpid liver; delayed, fermenting food in the bowels, or sour, gassy, stomach.

Poisonous matter clogged in the intestines, instead of being cast out of the system is re-absorbed into the blood. When this poison reaches the delicate brain tissue it causes congestion and that dull, throbbing, sickening headache.

Cascarets immediately cleanse the stomach, remove the sour, undigested food and foul gases, take the excess bile from the liver and carry out all the constipated waste matter and poisons in the bowels.

A Cascaret to-night will surely straighten you out by morning. They work while you sleep—a 10-cent box from your druggist means your head clear, stomach sweet and your liver and bowels regular for months.

### CITY ORDINANCE.

YES.....  
NO.....

Sec. 2. This ordinance shall immediately upon its adoption be certified to the clerk of the Lawrence County Court, with directions to place the above proposition on the city ballots.

Sec. 3. This ordinance shall be immediately posted in three public places in the city of Louisa; and shall be published for two consecutive weeks immediately prior to said election day in the Lawrence County Recorder and in the Big Sandy News, newspapers published in said city of Louisa.

Sec. 4. The words "improving the streets of the City" as herein used shall include reinforced concrete paving, brick paving with concrete sub-base, and bitulithic, granolithic or monolithic surface with concrete sub-base; and shall include such sewerage as may be determined to be necessary in connection with such paving; and shall include curb and gutter if determined to be necessary in connection therewith.

R. L. VINSON, Mayor.  
Copy Attest:  
C. B. WELLMAN, Clerk.

BROWN EYES.

### A STRIKING CONTRAST.

In contrast with some of the rules and regulations of the German Army which encourage the soldiers to commit the vilest crimes against individuals and against the country which they invade, are some statements issued under the heading of "The Soldier's Commandments," by Major W.E. P. French, of the United States Army, who, in the course of these commandments has suggestions as to what soldiers should do. Among other things he says:

"Remember Edith Cavell, Belgium, Serbia, the Lusitania, Louvain and the U-boats of the Hun, and, remembering Teuton savagery, barbarism and atrocities steel your heart against the ravishers of women the murderers and mutilators of children and noncombatants, the ruthless destroyers of homes, the Hounds-of-the-Hohenzollern, the bestial Boches.

"Be merciful to the women of your foe and shame them not, for you are a man, not a beast, and a woman bore you. And pity and shield the children in your captured territory, for you were once a helpless child, and only a dastard makes war on the weak."—Manufacturers' Record.

### DON'T SCOLD, MOTHER! THE CROSS CHILD IS BILIOUS, FEVERISH

LOOK AT TONGUE! IF COATED, CLEAN LITTLE STOMACH, LIVER, BOWELS.

Don't scold your fretful, peevish child. See if tongue is coated; this is a sure sign its little stomach, liver and bowels are clogged with sour waste.

When listless, pale, feverish, full of cold, breath bad, throat sore, doesn't eat, sleep or act naturally, has stomach ache, indigestion, diarrhoea, give a teaspoonful of "California Syrup of Figs," and in a few hours all the foul waste, the sour bile and fermenting food passes out of the bowels and you have a well and playful child again. Children love this harmless "fruit laxative," and mothers can rest easy after giving it, because it never fails to make their little "insides" clean and sweet.

Keep it handy, Mother! A little given today saves a sick child tomorrow, but get the genuine. Ask your druggist for a bottle of "California Syrup of Figs," which has directions for babies, children of all ages and for grown-ups plainly on the bottle. Remember there are counterfeits sold here, so surely look and see that yours is made by the "California Fig Syrup Company." Hand back with contempt any other fig syrup.

## TUSCOLA.

Jack Frost came in all his glory Saturday night and showed how easy it was to make all tender vegetation with before his awful breath. Late corn and cane was damaged very much.

There is a dearth of farm hands here and farmers as a result will lose some of their crops.

Mrs. Kittie Jordan has been on the sick list for a few days but is now able to be about the house.

H. A. Jordan has been trading quite recently purchased from John T. Dean who moved to Ohio last week.

C. W. Rice is attending court this week doing jury service.

Mrs. Tobe French and son were guests of Isaac Cunningham and wife Sunday. They came in their new car.

H. A. Jordan has been trading quite extensively in cattle the past few weeks.

Grant Cooksey started to the fair with a fine maltese cat which he was sure would take the premium as a mouser as its record was hard to equal, but fate intervened and he failed to exhibit Tabby. On his way to Louisa an automobile frightened his team and he was thrown from his wagon and he lost his cat.

The Red Cross wool has arrived, about 400 pounds of it, and all who can knit, or who will learn to knit, are urged to do so, that the Pike County Chapter may not fail to do the work assigned to it. Winter is coming and the snows have already begun to fall in France, and it is our duty, and privilege to help provide warm garments to keep our own boys from suffering from the cold, wool and needles, and instructions for the knitting of the needed articles will be furnished at the Red Cross headquarters. When we see our friends offering their lives, if need be, to the cause of liberty, it seems a small part that we are asked to do, to knit warm garments for them, doing this work in the warmth and comfort of our own homes, and it is to be hoped that the women of Pike county will take to this opportunity as gallantly as Pike county men and Pike county women always do.
